

How do I print a copy of my team's “formal” CYC roster?

First, you must log in to your team's Si Play web page/site (this would be the Si Play site that your parish has set up with your player registrations)

Second, under the Coach's Tools heading on left side of page, choose “print rosters”

Third, in the new screen that appears, choose “formal”

Fourth, a window should then appear near the bottom of your screen indicating that a pdf document has finished downloading. That should be your formal roster to open and print.

Every team is required to have a copy of their approved “formal” CYC roster with them at all CYC games. You will know that it is approved, by looking at the box in the upper right corner of the formal roster.
